

Psychology of Learning and Motivation

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

About This Training

We all know that students have different personalities. Each of them has a unique set of awareness and perceptions which will influence the way they respond to learning and their surrounding environment. Being acquainted with the psychology of students and how to motivate them will equip teachers with the necessary understanding to plan lessons and activities more effectively, and to better reach out to their students. Understanding how students think will better prepare teachers to integrate knowledge and teach students with diverse levels of learning abilities.
