

Introduction to Hazard Analysis and Critical Control Points (HACCP) MS 1480:2019

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

About This Training

This course is designed to provide an understanding of the principles of HACCP. The HACCP is a preventive risk management system designed to identify, evaluate and control hazards significant in the food industry related to safety. The main aim is to enable an organisation to achieve, maintain, improve and control its hazards safely. The course is based on the requirements of the HACCP (MS 1480) and deals with its interpretation and implementation.
