

Facilities and Maintenance Management: Current and Common Problems and Their Solutions in Industry

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

About This Training

Facilities Management (FM) involves the management and development of the workplace to integrate people and their work in the operation to achieve the organisation's objectives. This course is specifically developed to appeal to those wishing to enter the field of Facilities Management or those currently in the field who want to upgrade or formalise their knowledge. This is an industry designed training to provide a broad understanding of the improvement methodology, concepts, and process. The methodology is presented with case studies and examples drawn from service, business processes and manufacturing applications. The integration of manufacturing and maintenance is also addressed. With a heavy practice orientation, as much as a third of your time will be spent working through interactive practical exercises and assessments.
