

Testing and Measurement in Teaching

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

About This Training

Globalisation and the need for accountability, performance standards and quality assurance have stimulated and reflected new trends in educational measurement. The increased reliance on testing and measurement as educational tools has also raised issues concerning fairness of their uses and interpretations. Therefore, it is important for educators to have a sound understanding of the process of testing and how it may be used as a tool to enhance learning in students. Tests should reflect the content standards set and performance standards required by an educational institution.
