

# ISO 14001:2015 Environmental Management System Awareness Training

## About us

### Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

## About This Training

ISO 14001:2015 specifies the requirements for an environmental management system that an organisation can use to enhance its environmental performance, including using effective strategies and practices designed to eliminate negative consequences while increasing productivity. ISO 14001 is intended for an organisation aiming to manage its environmental responsibilities. It enables an organisation to improve environmental performance, reduce unnecessary costs, and increase productivity. ISO 14001 is expected to focus more on the environmental aspects of value chains. It thus follows the trend of focusing more intensely on the environmental effects of not only the activities in the company but also in the upstream processes (e.g. raw materials, logistics chains) as well as in the life cycle of products and services.

### Date and Time

5 April 2023  
Wednesday  
9 AM to 5 PM

### Training Venue

TAR UMT  
Jalan Genting Kelang, Setapak  
53300 Kuala Lumpur
