

Enhancing Business Innovation and Growth With New (Design) Thinking

About us

Who we are

The Centre for Continuing and Professional Education (CPE) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

About This Training

Design thinking is a popular new idea in the business world made spectacularly by Apple and IDEO. It offers an approach better suited for dealing with the increasing pressures for growth and innovation faced by many organisations and their managers today than the conventional, traditional business methods. In this programme, you will follow a model that contains four questions and ten tools. This application is valuable and powerful for abstract, multi-faceted concerns, issues and problems. It can give your next competitive advantage by transforming your corporation through the right balancing act. Therefore, it is essential to drive the organisation's innovation using the four core principles of Innovation, apply the seven modes of the Design Innovation Process, and develop a highly Creative Quotient Leader (CQL) that will drive and lead the innovation and growth in your organisation.

Date and Time

22 - 23 May 2023
Monday to Tuesday
9 AM to 5 PM
