

# MATHEMATICS

$$M = \left( \frac{x_1 + x_2}{2}, \frac{y_1 + y_2}{2} \right)$$

$$A = \pi r^2$$

$$A = \frac{\sqrt{3}}{4} a^2$$

This course is designed to strengthen students' Mathematics skills and enhance their problem-solving abilities. Through a combination of interactive lectures, practical exercises, and assessments, students will build a strong mathematical foundation and gain the confidence to address higher-level concepts.

## MATHEMATICS (WMAM0203)

<i>Date:</i>	TBA in 2025
<i>Day:</i>	Monday - Friday
<i>Time:</i>	7.00 pm - 9.00 pm
<i>Duration:</i>	42 Hours (2hours x 21 days)
<i>Fees:</i>	RM530 (with SST)
