

# Outcome Based Education

## About us

### Who we are

The Centre for Continuing and Professional Education (CPE Centre) was established in 1999 to provide continuing professional education and lifelong learning opportunities for University's staff, students, alumni and the public. As part of TAR UMT's commitment to continuing education and lifelong learning, CPE Centre is entrusted with designing, developing and delivering various activities, workshops and programmes to meet the diverse learning needs of multiple parties.

## About This Training

Outcome Based Education (OBE) is education based on producing particular educational outcomes that focuses on what students can actually do after they are taught; and expect all learners/students to successfully achieve particular (sometimes minimum) level of knowledge and abilities. The rationale for OBE is in order to have proof that learning has really taken place and that the learning has equipped learners with the skills and knowledge that will enable them to solve authentic problems in a workplace situation.

OBE is able to develop knowledge economy and higher order economic efficiency call for quality and accountability in education. Learning outcomes, as an integral part of OBE, can develop the accountability that can be put forward to the outside constituents (stakeholders).
